August 10, 2018

This publication includes deadline dates for the month of November 2018 and late announcements for the months of October 2018 and September 2018. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

**Next Deadline:** Nov 01, 2018

Supports the development of new high risk/high impact/transformative research. Grants have been awarded for the development of promising new technologies, and to facilitate the development of advanced instruments where such instruments would further research ideas. Funds support medical research, and science and engineering research. Awards are up to $5 million, and typically fall between $500,000 and $2 million. Limited submission: one application per institution each cycle. This is a two-part application process. Phase I application annual deadlines: 5/1 (contact program officer between 1/1 and 2/15 for support) and 11/1 (contact program officer between 7/1 and 8/15 for support). Select applicants will receive an invitation to participate in Phase II (proposal phase). See http://wmkeck.us/grant-programs/research for details. Email: concepts@wmkeck.org
