This publication includes deadline dates for the month of January 2019 and late announcements for the months of December 2018 and November 2018. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

**Program:** Grants Program  
**Agency:** Great Lakes Protection Fund  
**Next Deadline:** Jan 2019  
Supports projects that benefit the health of the entire Great Lakes ecosystem. Projects must identify a significant, tangible ecological outcome and a pragmatic plan to achieve it. The fund prefers to support projects that take concrete actions to achieve basin-wide ecological results. Support for conferences, environmental education, and basic research are considered only when they are part of a broader, regional action strategy. Annual deadline: pre-proposals may be submitted at any time; feedback provided within three months. Invited full proposals are reviewed at quarterly board meetings. **Program:** Collaborative Research in Computational Neuroscience (CRCNS)

**Agency:** National Science Foundation

**Next Deadline:** Nov 27, 2018

Jointly sponsored by NSF, NIH, German Federal Ministry of Education and Research, US-Israel Binational Science Foundation, and French National Research Agency, Japan’s National Institute of Information and Communications Technology, and the State Research Agency and National Institute of Health Carlos III, both of Spain support collaborative activities that will advance the understanding of nervous system structure and function, mechanisms underlying nervous system disorders, and computational strategies used by the nervous system. Support is available on two tracks: collaborative research projects and data sharing. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5147 for details. Email: jowens@nsf.gov
