

Grants Resource Center
Deadlines
 Funding Expertise. Personally Delivered.

September 10, 2018

This publication includes deadline dates for the month of December 2018 and late announcements for the months of November 2018 and October 2018. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk () are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.**

Program: Collaborative Research Grants

Agency: National Endowment for the Humanities

Next Deadline: Dec 05, 2018

Supports original research undertaken by a team of two or more scholars, or individual research that requires additional staff and resources. Eligible projects include research that significantly adds to knowledge and understanding in the humanities, archaeology research, translations, and research conferences. Funds can be used for personnel, travel, field work, information technology applications, and technical support. Publication Grants and Archeology Grants provide up to \$250,000 for projects lasting one to three years; conference awards up to \$50,000 for one year. Annual deadline: 12/5. See <http://www.neh.gov/grants/research/collaborative-research-grants> for details. Email: collaborative@neh.gov

CFDA Number:

Program: Systems Developmental Biology for Understanding Embryonic Development

Agency: National Institutes of Health

Next Deadline: Dec 06, 2018

The purpose of this funding opportunity announcement (FOA) is to promote systems developmental biology. In the context of this FOA, systems developmental biology is defined as research focused on understanding how biological components work together to produce the complex biological phenomena encompassing embryonic development. LOIs are due 30 days prior to due date. Annual deadline: 12/6 through 12/7/19. See <https://grants.nih.gov/grants/guide/pa-files/PAR-17-454.html> for details. Email: coulombeJ@mail.nih.gov

Program: Cutting-Edge Basic Research Awards (CEBRA) (R21)

Agency: National Institutes of Health

Next Deadline: Dec 20, 2018

Supports research (R21) that is highly innovative or conceptually creative related to the etiology, pathophysiology, prevention, or treatment of substance use disorders (SUDs). It supports high-risk and potentially high-impact research that is underrepresented or not included in NIDA's current portfolio. The proposed research should: (1) test an innovative and significant hypothesis for which there are scant precedent or preliminary data and which, if confirmed, would transform current thinking; and/or (2) develop, and/or adapt, revolutionary techniques or methods for addiction research or that show promising future applicability to SUD research. The review is convened by NIDA and expedited funding decisions are used. Annual deadlines: 8/20 and 12/20 through 12/19/20. See <http://grants.nih.gov/grants/guide/pa-files/PAR-18-437.html> for details Email: lossieac@mail.nih.gov

Agency: National Science Foundation

Next Deadline: Dec 11, 2018

Supports research to develop next generation health care solutions and encourage existing and new research communities to focus on breakthrough ideas in a variety of areas of value to health, such as networking, pervasive computing, advanced analytics, sensor integration, privacy and security, modeling of socio-behavioral and cognitive processes and system and process modeling. Funds support projects working within constraints arising from clinical/medical needs, barriers to change, heterogeneity of data, semantic mismatch and limitations of current cyberphysical systems and an aging population. Annual Deadline: 12/11. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=504739 for details. Email: wnilsen@nsf.gov

Program: Plant Biotic Interactions

Agency: National Science Foundation

Next Deadline: Oct 2018

Supports research on the processes that mediate beneficial and antagonistic interactions between plants and their viral, bacterial, oomycete, fungal, plant, and invertebrate symbionts, pathogens and pests. Projects must be strongly justified in terms of fundamental biological processes and/or relevance to agriculture and may be purely fundamental or applied, or include aspects of both perspectives. Limited submission: In a given year, an individual may be a PI, co-PI, or sub-award lead on no more than two proposals for any program in the Division of Integrative Organismal Systems. Annual Deadline: Proposals accepted at any time. See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505267 for details. Email: mmishkin@nsf.gov

Program: Particle Astrophysics and
Cosmology - Theory

Agency: National Science Foundation

Next Deadline: Dec 11, 2018

Program supports proposals on theoretical particle astrophysics and big-bang cosmology as well as more speculative string theory-inspired cosmologies. Focus areas include: understanding the quarks-to-cosmos connection; and better understanding the implications of the fluctuation spectra of the cosmic microwave background. Funds support projects that encompass dark matter, dark energy, high energy cosmic rays as well as exotic cosmologies arising from Brane-world and String Theory scenarios, including formulating new approaches for theoretical, computational, and experimental research that explore the fundamental laws of physics. Annual Deadline: Second Tuesday in December. See https://www.nsf.gov/funding/pgm_summ.jsp?pims_id=505444&org=PHY for details. Email: kdienes@nsf.gov

CFDA Number:

Contact: Keith Dienes, Program Director
MPS
703-292-5314

Program: Quantum Information Science

Agency: National Science Foundation

Next Deadline: Dec 06, 2018

Supports theoretical and experimental proposals that explore quantum applications to new computing paradigms or that foster interactions between physicists, mathematicians, and computer scientists, pushing the frontiers of quantum-based information, transmission, and manipulation. Although focused on investigations relevant to physics disciplines, the program encourages broader impacts on other disciplines. Annual deadline: first Thursday in December. Agency: U.S. Department of Defense

Next Deadline: Dec 07, 2018

Awards 36-month portable fellowships to new graduate students to support full-time study and research, leading to doctoral degrees in: Aeronautical and Astronautical Engineering; Biosciences; Chemical Engineering; Chemistry; Civil Engineering; Cognitive, Neural, and Behavioral Sciences; Computer and Computational Sciences; Electrical Engineering; Geosciences; Materials Science and Engineering; Mathematics; Mechanical Engineering; Naval Architecture and Ocean Engineering; Oceanography; and Physics. Fellows can attend any U.S. school and do not incur military or other service obligation. See <http://www.ndsegfellowships.org/> for details. Email: ndseg@asee.org

Program: ONR: Mathematical, Computer and Information Sciences Research

Agency: U.S. Department of Defense

Next Deadline: Oct 2018

Sponsors basic research, applied research, and advanced technology development efforts in mathematics, computer and information sciences that address Navy and Department of Defense needs in computation, information processing, information operation, information assurance and cyber security, decision tools, and command and control with specific focus on enabling rapid, accurate decision making in network centric environment. Submission deadline is ongoing. See <http://tinyurl.com/353yfs9> for details. Email: don.wagner@navy.mil

Program: ONR: Navy Postdoctoral Fellowship Program

Agency: U.S. Department of Defense

Next Deadline: Oct 2018

Sponsors program at Naval R&D centers & labs to increase the involvement of creative & highly trained scientists & engineers from academia & industry to scientific & technical areas of interest & relevance to the Navy. Supports about 40 new postdoc appointments/year. Current interests include: computer science, artificial intelligence, plasma physics, acoustics, chemistry, materials science, optical sciences, condensed matter & radiation sciences, electronics science, environmental sciences, marine geosciences, remote sensing, oceanography, marine meteorology. Applications accepted on an ongoing basis. See http://nrl.asee.org/about_the_postdoctoral_program Email: postdocs@asee.org

Program: Faculty/Staff Exchange Program

Agency: U.S. Department of Energy

Next Deadline: Oct 2018

Provides support for important Idaho National Lab (INL)/university collaborations that are designed to bring close university involvement in the research, educational, and outreach activities of the laboratory. This funding can be used to initiate, continue, or enhance the interactions between INL and university researchers and students.

Collaborations with all universities are welcomed, but preferential consideration will be given to collaborations with a select group of universities.

Annual Deadline: Proposals accepted at any time. See <https://www.inl.gov/inl-initiatives/education/> for details. Email: julie.ulrich@inl.gov

Program: Office of Science Graduate Student Research

Agency: U.S. Department of Energy

Next Deadline: Nov 15, 2018

Supports part of a graduate student's thesis research to be conducted at a DOE laboratory/facility.

Students must be conducting basic research in one of the following broad areas: Advanced Scientific Computing Research; Basic Energy Sciences; Biological and Environmental Research; Fusion Energy Sciences; High Energy Physics; and Nuclear Physics. Awardees are eligible to receive a monthly stipend of up to \$3,000 for general living expenses.

The program does not provide additional support for supplies, materials, or travel. See solicitation for specific focus areas under the broad topic areas. See <http://science.energy.gov/wdts/scgsr/> for updates.

Program: Neotropical Migratory Bird Conservation Act Grants

Agency: U.S. Department of the Interior

Next Deadline: Nov 06, 2018

Supports public/private partnerships in the U.S., Canada, Latin America and the Caribbean that promote the long-term conservation of Neotropical migratory birds and their habitats. Support includes habitat management, research, monitoring, education, community involvement, outreach, ecotourism, and training. The average award has been around \$100,000, with a range of \$9,000 to \$250,000. A 3:1 match is required. See <http://www.fws.gov/birds/grants/neotropical-migratory-bird-conservation-act.php> for details.

Program: National Summer Transportation Institute--Host Site

Agency: U.S. Department of Transportation

Next Deadline: Dec 01, 2018

Notice seeking applications to assist in the National Summer Transportation Institute, a STEM focused program for high school and junior high school students, to inform them about transportation careers, and encourage them to consider transportation-related courses of study. The length of the program is typically two to four consecutive weeks, and may be student day programs or residential programs. Potential applicants must contact their state DOT representative. Due dates vary by state, but will be no later than the first business day after November 30. See

https://www.fhwa.dot.gov/civilrights/programs/nsti_faq.cfm or <https://www.grants.gov/web/grants/view-opportunity.html?oppId=308558> for details. Email: joyce.gottlieb@dot.gov
