May 10, 2017

This publication includes deadline dates for the month of August 2017 and late announcements for the months of July 2017 and June 2017. Proposals submitted by a referenced target date will be included in a particular review cycle, while those received after the target date will be held for the next review cycle. It is advisable to contact the program staff cited in each listing to obtain all available information.

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates.

Program: Early Care and Education Research Scholars: Child Care Research
Agency: Administration for Children and Families
Next Deadline: Jun 12, 2017

The purpose of the grant is to directly support graduate students’ engagement in child care policy research. Along with supporting the students’ training and professional development as researchers, these grants contribute to best approaches for delivering services to diverse, low-income families and their children. Students are expected to become autonomous researchers with specialized knowledge of child care policy issues. ### Breast Cancer Research Program

**Agency:** U.S. Department of Defense  
**Next Deadline:** Jun 08, 2017  
Supports innovative research aimed at eradicating breast cancer. Program encourages applications that focus on poorly understood issues such as those related to susceptibility, recurrence, or metastasis. Anticipated FY 17 award mechanisms include Breakthrough Award Level 1-4; Era of Hope Scholar Award, Breakthrough Fellowship Award Innovator Award, Distinguished Investigator Award; and Innovator Award. Deadlines refer to required pre-applications. Award amounts vary. Deadlines fall on either 6/8/17 or 6/9/17 depending on mechanism. **Program:** Postdoctoral Program in Environmental Chemistry  
**Agency:** Dreyfus Foundation  
**Next Deadline:** Aug 01, 2017  
Supports the training of Ph.D. chemists and chemical engineers in research activities related to chemistry and the environment. Each awardee appoints a postdoctoral scientist to spend up to two years in a program intended to stimulate the scientist to carry out further research on environmental understanding and values. Chemistry topics include: climate, atmosphere, aquatic or marine settings, toxicology, soil or groundwater. Each two-year award of $120,000 carries an annual stipend of $48,000 for direct support.
