GROUP A

General – Anyone working with Biological Materials

☐ Introduction to Biosafety
☐ Basic Biosafety Training
☐ Biosafety Retraining
☐ Shipping and Transport of Regulated Biological Materials
☐ Emergency and Incident Response to Biohazard Spills and Releases
☐ OSHA Personal Protective Equipment Training

rDNA

If you are working with rDNA you must take Group A AND ALSO TAKE the following course:

☐ NIH Recombinant DNA (rDNA) Guidelines

Blood, Urine, Saliva

If you are working with Blood, Urine, Saliva you must take Group A AND ALSO TAKE the following course:

☐ OSHA Bloodborne Pathogens

Select Agents

If you are working with Select Agents you must take Group A AND ALSO TAKE the following course:

☐ Select Agents, Biosecurity and Bioterrorism
These are the CITI Training courses listed under Question 8 –

Biosafety/Biosecurity Courses:

- Introduction to Biosafety
- Basic Biosafety Training
- Biosafety Retraining
- Animal Biosafety
- Shipping and Transport of Regulated Biological Materials
- OSHA Bloodborne Pathogens
- Select Agents, Biosecurity and Bioterrorism
- Emergency and Incident Response to Biohazard Spills and Releases
- Human Gene Transfer Trials
- NIH Recombinant DNA (rDNA) Guidelines
- OSHA Personal Protective Equipment Training
- Institutional Biosafety Committee Member

Modules included in this IBC Member Course:
Dual Use Research of Concern
Biosafety Course Overview
Laboratory-Acquired Infections
Biohazard Risk Assessment
Medical Surveillance
NIH Guidelines for Research Involving Recombinant and Synthetic Nucleic Acid Molecules
Human Gene Transfer Research

- Nanotechnology
- Dual Use Research of Concern (DURC)
- Biosafety Complete Training

NOTE: If you are working in a lab setting, there is additional training required that is provided by the Environmental Health & Safety Department.
