DoD Tuberous Sclerosis Complex, Exploration- Hypothesis Development Award

FON:
W81XWH-19-TSCRP-EHDA

AGENCY:
Army (Army), Department of Defense (Defense)

ITEM:
Notice seeking applications to develop exploratory, pioneering, and transformative science that promotes discoveries in tuberous sclerosis complex (TSC) in four focus areas: 1) eradicating tumors associated with TSC and TSC-associated lymphangioleiom-yomatosis; 2) preventing epilepsy, improving treatment, and mitigating comorbidities associated with TSC-related seizures; 3) understanding the features of TSC-Associated Neuropsychiatric Disorders and reducing their impact through pharmacological or nonpharmacological interventions; and 4) advancing clinical trial readiness through development of biomarkers, clinical endpoints, clinical pharmacokinetic/pharmacodynamic patient selection and sample size determination, novel drug delivery, and treatment optimization.

ACTION:
Pre-applications are due April 18, 2019. Applications are due May 9, 2019. Approximately $6 million is available to support projects lasting up to two years.

High impact, Interdisciplinary Science in NIDDK Research Areas (RC2 Clinical Trial Optional)

FON:
PAR-19-202

AGENCY:
National Institutes of Health (NIH), Department of Health and Human Services (HHS),
National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)

ITEM:
Notice seeking applications to support high impact ideas that may lay the foundation for new fields of investigation within the mission of NIDDK. The interdisciplinary approach encouraged by this FOA is envisioned to generate a research resource and/or foster discovery-based or hypothesis-generating science that can have a significant impact on the broader scientific community.
